- **Phone Number:** [01007024003]

Profile

An innovative and ambitious Front-End Developer specializing in designing and developing web pages using modern technologies such as HTML, CSS, JavaScript, and React. I strive to enhance the work environment by providing efficient and innovative software solutions. I possess strong teamwork and leadership skills and always aim for excellence in every project I undertake.

Work Experience

Front-End Developer (Freelancer)

- Designed and developed interactive user interfaces using HTML, CSS, JavaScript, and React.
- Enhanced user experience (UX) by designing attractive and user-friendly interfaces.
- Collaborated with clients to understand their requirements and deliver tailored software solutions.
- Used version control tools like Git and GitHub for project management.
- Worked with UI/UX designers to transform designs into interactive user interfaces.
- Improved web performance and page load speed using techniques like Lazy Loading and Code Splitting.

Education

Bachelor's in Business Information Systems - The Higher Institute of Commercial Sciences (Expected Graduation: 2026)
